EDUCATION

Budge Budge Institute of Technology

B.Tech in Computer Science and Engineering - CGPA – 7

08/2022 – present

Budge Budge India

West Bengal Council of Higher Secondary Education

Higher Secondary - Percentage – 69

04/2021 - 2022

Batanagar, India

West Bengal Board of Secondary Education

Secondary - Percentage - 74%

04/2019 – 07/2020

Batanagar, India

PROJECTS

LetterBee - Full Stack MERN Web Application 🔄 🌐

03/2025 – 06/2025

- Developed LetterBee, a secure full-stack MERN web application using MongoDB, Express.js, React.js, and Node.js, designed with RESTful API architecture.
- Implemented JWT-based authentication and authorization along with Redux Toolkit for efficient and scalable client-side state management.
- Designed and integrated end-to-end encrypted (E2EE) real-time messaging using AES encryption, ensuring secure message transmission and storage.
- Built advanced messaging features including message copy, delete, and real-time updates, along with status posting and complete user profile management.
- OAuth authentication and video calling functionality are currently under development for future release.

ClimaSphere - Full-Stack Web Application 🔄 🌐

- Developed Climasphere, a web application enabling users to access weather and pollution data for any area based on area name, with data download functionality requiring secure sign-up/sign-in. Tech Stack: React.js, JavaScript, REST API, Tailwind CSS. Implemented real-time user interaction features, including chat and social media-style posting for knowledge sharing and collaboration among environmentalists (features under active development).
- Built a dedicated Data Analyst portal allowing analysts to download datasets, perform data analysis, and provide actionable insights viewable by users. Designed the platform to combine data, analysis, and insights in a single interface, facilitating learning for environment students and collaboration among environmentalists.
- Technologies used: MERN stack, REST APIs, JWT authentication, secure data handling, front-end dashboards.

SKILLS

- Web Development
- Deployment(AWS)
- DSA and OOPS concept

TECHNICAL SKILLS

- Languages : Javascript, Cpp,
- Database, Frameworks and Library : MongoDB, ExpressJS, Tailwind CSS and ReactJs,
- Version Control and Deployment Tools : Git, GitHub and AWS
